SUMMARY

Performance-focused Cybersecurity Engineer with 4+ years of experience in IT support, software engineering, and AI-driven automation. Proven expertise in network security, system administration, DNS/IP management, and web application development. Skilled at Technical Support & Resolution, implementing secure coding practices, and building scalable solutions that improve system reliability. Recognized for reducing downtime, enhancing user experience, and safeguarding digital environments. Currently pursuing a Bachelor of Computer Science with a focus on cybersecurity and AI applications.

CERTIFICATIONS

Google Cybersecurity Professional Certificate - Coursera

Aug 11, 2026

- Completed a 9-course program developed by Google focusing on foundational cybersecurity practices.
- Demonstrated competence in beginner-level Python, Linux, SQL, Security Information and Event Management (SIEM) tools, and Intrusion Detection Systems (IDS).
- Proficient in identifying common cybersecurity risks, threats, and vulnerabilities, as well as applying mitigation techniques.
- Verification Link: coursera.org/verify/professional-cert/20AR13CFTFNM

TECHNICAL & KEY SKILLS

Cybersecurity & Networking:	Network Security & Firewalls, DNS & IP Management, System Administration & Hardening, Web Application Security, Web Hosting Security, Linux system administration, Incident Response & Troubleshooting.
Programming & Development:	Python, Java, JavaScript, C++, WordPress, Wix, Secure Web Development, UI/UX Optimization for Security, Secure Coding Practices.
AI, Automation & Ops:	Chatbot Development, Prompt Engineering, AI Integration, Automation & API Integration, Technical Documentation & Knowledge Management.

EXPERIENCE

Software Engineer

01/2023 - Current

Perfect Pact LLC

Ulaanbaatar, Mongolia

- Designed and launched secure, customized websites using WordPress, Wix, and AI tools, improving client online engagement by 25%.
- Strengthened web application security by applying encryption protocols and secure coding standards, reducing vulnerabilities by 30%.
- Enhanced UI/UX performance, leading to increased customer satisfaction scores and longer session times.
- Integrated API-based automation tools, reducing client manual workload by 30%.
- Partnered with stakeholders to deliver end-to-end digital solutions aligned with cybersecurity best practices.

Prompt Engineering, Operations Manager

01/2023 - Current

Smartbot.mn

Ulaanbaatar, Mongolia

- Developed and deployed AI-powered chatbots, cutting customer response times by 40%.
- Configured secure integrations with client social media platforms, increasing engagement and workflow.

IT Support

Mcloud.mn

01/2021 - 01/2024

Ulaanbaatar, Mongolia

- Delivered technical support for 200+ clients, resolving hosting, DNS, IP, and domain-related issues with a 95% success rate.
- Redesigned the company's main website UI/UX, increasing traffic by 25% and improving usability.
- Implemented server monitoring and security hardening, improving uptime and reducing system vulnerabilities.
- Authored and maintained technical documentation, reducing repeat support requests by 18%.
- Collaborated with management to establish IT security protocols, ensuring compliance with company standards.

PROJECTS

- **Research and Analysis for Developing a Cyber Attack, Violation, and Crime Prevention System:**
 - Analyzed Mongolia's "Law on Cyber Security" and "Law on Cyber Resilience" to evaluate legal frameworks for preventing cyber attacks and violations.
 - Researched cybersecurity risk assessment and information security audit methodologies to identify preventative measures for critical infrastructures.
 - Evaluated requirements for cyber incident response, reporting, and cross-sector cyber threat information sharing to ensure effective mitigation.
- **Computer Electronics Ecommerce Website (bars.mn):** Built an ecommerce website for computer electronics with product browsing, clear navigation, customer-friendly shopping flows, and security-aware handling of user data and checkout journeys.
- **BNI Mongolia Business Network Website (bniprofitmongolia.com):** Developed a responsive business network website presenting community information and membership value with reliable forms and safe link handling.
- **World Space Week Event Website (wsw.dudu.mn):** Created a public event website to communicate schedules, event details, and participation information with a structured, trustworthy content experience.
- **PassCheck Password Security Tool (passcheck-black.vercel.app):** Built a cybersecurity web app that checks password strength, surfaces risk signals, and encourages safer credential habits.
- **CTF Writeup Collection (GitHub):** Maintained security learning writeups covering web security labs, networking fundamentals, HTTP headers, CORS/CSRF, SQL injection basics, and XSS basics.

EDUCATION AND TRAINING

Bachelor of Computer Science

Huree University of ICT

08/2025 - Current

Ulaanbaatar, Mongolia

VOLUNTEER EXPERIENCE

STEAMEX 2026 Volunteer

04/2026

DUDU Education Foundation & UNICEF Mongolia

Ulaanbaatar, Mongolia

- Volunteered 74 hours at Mongolia's premier STEAM Expo (STEAMEX 2026).
- Assisted with event operations, participant coordination, and educational activities.
- Collaborated with organizers, educators, and volunteers to ensure successful event execution.
- Recognized with a Certificate of Excellence for outstanding dedication, initiative, and contributions.

International Space Kamp Mongolia 2025
